

KRYSTIAN WASIL

PROFILE

IT student and intern experienced in developing large-scale geospatial mapping tools. Dedicated to effective technical problem-solving and continuously developing teamwork and technical skills through active involvement in a university research group.

EXPERIENCE

Java/Scala Engineering Intern, HERE Technologies, Krakow — 07.2025-Present

Maintained and developed Java and Scala libraries for complex geospatial mapping and data processing.

Supported system architecture and code quality by applying design patterns and utilizing tools such as Maven.

Developed a standalone benchmarking project for the main library and configured custom GitLab CI/CD pipelines, alongside hands-on work with Docker.

Accelerated daily development workflows by actively leveraging AI coding assistants, primarily GitHub Copilot.

Presented technical solutions and project progress to clients.

Maintained technical documentation in Confluence and collaborated closely within a diverse, international team environment.

PROJECTS

[GitHub Repository](#)

CareTreck – Medical Facility Management System | *Backend Developer*

Co-developed the RESTful backend architecture for a mobile application utilizing **Java 17** and **Spring Boot** (MVC pattern).

Sienkiewicza 14
Lublin
Polska

Designed and managed a **PostgreSQL** relational database for efficient handling of patient data, treatment histories, prescriptions, and appointment scheduling (CRUD operations).

EDUCATION

Maria Curie-Skłodowska University (UMCS) | Lublin, Poland

Master's Degree in Computer Science, 2025-Present

Bachelor's Degree in Computer Science, 2022-2025

Thesis: Comparison of Python and Rust in the implementation of mathematical algorithms --- analysis of performance, ease of implementation and support for parallelism

Grade: Excellent (5.0/5.0)

SKILLS & TECHNOLOGIES

Technical Skills

- **Programming Languages:** Java, Python, Bash (Scripting)
- **Architecture & Patterns:** REST API, MVC, Multi-module architectures, Software Design Patterns
- **Computer Science Fundamentals:** Algorithms & Data Structures
- **Databases & Data:** Database management, efficient data processing
- **Version Control & Tools:** Git (Advanced proficiency), GitLab, GitHub
- **AI Integration:** GitHub Copilot, Large Language Models (LLMs) workflows
- **Methodologies:** Agile / Scrum

Soft Skills & Competencies

- **Problem-Solving:** Independent technical research and autonomous issue resolution
- **Teamwork:** Cross-functional collaboration and effective technical communication
- **Languages:** English (C1), Polish (Native)
