ALEKSANDRA ZADROŻNA

About Me

HR Assistant with experience within a European Union organization, working in a fast-paced, multicultural environment. Skilled in supporting international HR processes and administrative workflows with high attention to detail. Fluent in English and accustomed to cross-border collaboration. I am looking to leverage my expertise to foster organizational growth and employee development in a global company.

WORK EXPERIENCE

11.2024 – present

European Border and Coast Guard Agency (Frontex)

EXPATRIATE SERVICES ASSISTANT

Institutional Relations & Compliance

- **Liaising with Key Authorities:** Facilitating ongoing cooperation with the Ministry of Foreign Affairs and Tax Authorities to ensure institutional compliance and regulatory alignment.
- **Stakeholder Management:** Acting as a primary point of contact for inter-office relations, managing communication flows between various departments and official contact points.
- **Regulatory Documentation:** Analyzing and drafting official high-level documentation in accordance with organizational standards and legal requirements.
- **Tax Compliance Analysis:** Performing detailed data analysis for employee tax refund processes, ensuring accuracy and adherence to financial regulations.

Operations & International Collaboration

- **Global Vendor Coordination:** Managing relations and streamlining collaboration with foreign contractors and diverse internal company departments.
- **Process Optimization:** Identifying operational bottlenecks and implementing improvements to team workflows to enhance overall productivity.
- **Meeting & Event Logistics:** Executing end-to-end organization of high-level meetings, agendas, and corporate events for international stakeholders.

WORK EXPERIENCE

- **Communication Management:** Overseeing professional correspondence and drafting internal informational articles, manuals, and instructional guidelines for staff.

Database & Resource Management

- **Advanced Data Management:** Maintaining and updating complex employee databases in Excel, utilizing advanced functions to ensure data integrity and reporting accuracy.
- **Financial Verification:** Executing rigorous invoice verification processes and monitoring budget expenditures for office supplies.
- **Fleet Administration:** Coordinating the administrative lifecycle of the employee vehicle fleet, including registration and official documentation.
- **Office Continuity:** Managing office supply procurement and inventory to ensure uninterrupted departmental operations.

06.2016 – 11.2024

Gabona Professional Cosmetics Supplier

DATA ANALYSIS SPECIALIST

Product Management & Market Analysis

- **Conducting strategic analysis** of the cosmetics market to identify pricing trends and untapped opportunities for portfolio expansion.
- **Analyzing sales price lists and competitor data** to optimize pricing strategies and maintain market competitiveness.
- **Managing the end-to-end integration of new brands** into the company's commercial offer, from initial selection to system implementation.
- **Developing persuasive sales offers** tailored to specific client needs and market segments.

Supply Chain & Operations

- **Coordinating international procurement** by liaising with foreign contractors and internal departments to ensure a seamless supply chain.
- **Overseeing inventory control and stock management**, balancing stock levels to meet demand while minimizing overhead costs.
- **Executing procurement strategies**, including both regular stock replenishment and specialized, customer-specific orders.
- **Performing rigorous financial audits**, specifically invoice verification and system-wide price synchronization.

Data Administration & Team Leadership

- **Managing complex databases in Excel**, utilizing advanced functions to ensure data integrity and facilitate accurate business reporting.
- **Generating comprehensive analytical reports** to provide actionable insights for senior management.
- **Facilitating the onboarding and training** of new team members, ensuring high standards of operational performance
