- Technical documentation · Configuration tracking · Development process documentation · Clear written & verbal communication

Professional Attributes

- Detail-oriented · Problem-solving mindset · Adaptability · Collaboration

EXPERIENCE

Junior .NET Developer

@Rentals United (Guesty)

July 2024 – Present

- Investigated and fixed client-reported bugs, applying strong debugging and root-cause analysis skills.
- Delivered smaller features and improvements within sprint cycles, supporting overall product quality.
- Maintained detailed documentation of development changes, ensuring transparency for support and QA teams.
- Collaborated closely with testers, support specialists, and product owners to resolve issues across environments.
- Strengthened technical foundation in APIs, SQL, and system integrations to support cross-functional problem-solving.

IT Support Specialist

@Rentals United (Guesty)

July 2022 – July 2024

- Resolved technical issues by analyzing API logs (incoming/outgoing requests), querying SQL databases, and testing with Postman.
- Delivered timely support for clients using APIs, ensuring high service quality and user satisfaction.
- Provided clear, non-technical explanations to end-users via email and video calls, improving customer experience.
- Created and maintained knowledge base documentation for recurring issues, reducing repeat tickets.
- Collaborated with internal teams to escalate complex problems and ensure long-term solutions.
