CERTIFICATIONS

ISTQB Certified Tester Foundation Level
ISTQB® - International Software Testing
Qualifications Board
Issued Jan 2021

PROFESSIONAL SUMMARY

Analytical and detail-oriented QA engineer with nearly five years of experience in software testing, including developing automated tests. Strong problem-solving skills, keen attention to detail, and a commitment to delivering robust, reliable, and high-performing applications. My career has always been associated with quality, starting from overseeing industrial processes to transitioning into software QA. The blend of structured delivery methodologies inspired by production environments and the creativity of the software industry makes this field especially exciting for me.

PROFESSIONAL EXPERIENCE

Test Automation Engineer

TestSpring – iGaming project
