

Summary

Full Stack Developer with 4+ years of commercial experience building scalable web applications using Next.js, React, and TypeScript.

Experienced in designing and developing full-stack systems, integrating APIs, working with databases (PostgreSQL, MongoDB), and building modern frontend architectures.

Strong background in AI-driven applications, web scraping, and SaaS platforms. Comfortable working in Agile/Scrum environments and delivering production-ready solutions.

Currently building a marketplace platform (Trainly) with focus on scalability, security, and modern architecture.

Skills

FRONTEND:

React

Next.js (App Router)

TypeScript

Vue.js (Nux 2)

Tailwind CSS

Redux UI

Storybook

Zustand

TanStack Query

BACKEND:

Node.js

Nest JS

Prisma

PostgreSQL

MongoDB

REST API

GraphQL

Supabase

AI & DATA PROCESSING:

OpenAI

Anthropic

Google Gemini

AWS Bedrock

Langfuse

Web Scparing (Puppeteer,Cheerio, Apify)

DEVOPS & CLOUD:

Docker

PM2

Webpack

AWS (S3, Translate, Comprehend)

TESTING & AUTOMATION:

Playwright

Jest

Postman

Insomnia

Swagger/OpenAPI

Experience

FullStack Developer - Autentika

04.2025 - 12.2025

- Developed scalable web applications using Next.js, TypeScript, and Tailwind CSS
- Integrated REST and GraphQL APIs, enabling dynamic and data-driven features
- Implemented CMS solutions (Strapi, Payload CMS) to streamline content management
- Built and integrated web scraping systems for automated data acquisition
- Worked with Prisma and PostgreSQL for backend data handling
- Collaborated in Scrum teams using Jira, Slack, and Notion
- Utilized AI tools (LLMs, Langfuse) in production workflows

FullStack Developer - Mdataset

06.2024 - 02.2025

- Built web applications using Next.js, TypeScript, and Tailwind CSS
- Integrated APIs (REST) and search systems (Algolia)
- Developed backend logic with Prisma and MongoDB
- Performed code reviews and collaborated via GitHub
- Implemented automation workflows using Make
- Worked in Agile/Scrum environment

Frontend Developer - Softmaker

03.2024 - 08.2024

- Developed e-commerce applications using Next.js and Spree
- Implemented UI based on Figma designs
- Wrote automated tests using Jest
- Used Storybook for component development
- Planned tasks and conducted code reviews

Frontend Developer - Way Better - Digital Marketing

01.2024 - 08.2024

- Built websites using HTML, CSS, JavaScript, and Webflow
- Translated Figma designs into responsive UI

Frontend Developer / Project Team Lead - SoftwareHut

09.2023 - 10.2023

- Developed React + TypeScript application with Redux and REST API
- Built AI-based application integrating ChatGPT
- Led project team in Scrum environment (Jira)
- Configured Webpack and frontend architecture

Junior Developer / Technical Support - T-Matic Group

02.2023 - 08.2023

- Built frontend applications integrated with backend systems
- Displayed BPMN diagrams using React
- Worked with tools: Postman, Swagger, Jira

Operations Technician / Technical Project Manager - Znipe.TV

07.2018-02.2021

- Managed live e-sports productions and technical operations
- Collaborated with global teams (EU, US, Korea)
- Developed frontend features for internal tools
- Led teams and trained new employees

Certifications

- Advanced JavaScript - Udemy (Mosh Hamedani)
- Ultimate React 18 with TypeScript - Udemy
- Modern HTML5 & CSS3 - Udemy

Languages

Polish - Native
English - C2 (Advanced)
German - A1 (Beginner)

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

Projects (Selected)

Flipatic - AI SaaS Video Generation Platform

- Designed and developed full-stack SaaS platform for generating videos from articles using AI
- Built web scraping system (Puppeteer, Cheerio) to extract content from websites
- Integrated multiple AI providers (OpenAI, Anthropic, Google, AWS Bedrock)
- Implemented AI voice generation (ElevenLabs, AWS Polly) and subtitles synchronization
- Developed real-time video rendering system using Remotion Lambda
- Built frontend editor with live preview (Next.js, Remotion Player)
- Implemented real-time progress tracking (WebSockets)

Tech: Next.js, NestJS, PostgreSQL, Prisma, AWS, Redis (BullMQ), Socket.IO, Remotion

Trainly — Personal Training Marketplace Platform (In Progress)

- Designing and developing full-stack marketplace platform connecting personal trainers with clients
- Implementing advanced search and filtering system (location, specialization, pricing)
- Building secure authentication system using JWT stored in httpOnly cookies
- Developing booking system and session management logic
- Creating responsive and accessible UI using Next.js, Tailwind CSS, and Radix UI
- Managing global state and authentication using Zustand
- Implementing form validation with React Hook Form and Zod
- Designing RESTful API and backend architecture using NestJS and Prisma
- Ensuring application security (RBAC, input validation, password hashing, CORS)
- Implementing internationalization (Polish / English)

Tech: Next.js 15, React 19, TypeScript, Tailwind CSS, Zustand, NestJS, Prisma, PostgreSQL, JWT, Docker

RemoteJobs.co - Job Aggregation Platform

- Co-developed full-stack platform aggregating job offers from multiple sources
- Built scraping pipelines (Apify, Playwright, Cheerio)
- Implemented Stripe payments
- Developed frontend using Next.js and Zustand

Tech: Next.js, Payload CMS, REST API, Stripe

Hartmann Tresore - E-commerce Platform (SSR, Multilingual)

- Maintained and developed SSR-based e-commerce platform (Nuxt.js)
- Integrated GraphQL API and managed application state
- Implemented multilingual support (PL/EN)
- Optimized performance (lazy loading, caching, SEO improvements)
- Integrated CRM, analytics, and marketing tools

Tech: Nuxt.js, Vue.js, GraphQL, Apollo, SSR, SCSS

Triverna - Hotel Booking Platform

- Developed frontend features and filters for booking platform
- Integrated GraphQL API
- Built admin panel features using Payload CMS
- Created promotional landing pages and user flows

Tech: Next.js, GraphQL, Payload CMS

Education

Białystok University of Technology 2022 - 2023

Postgraduate Studies - ICT Technologies and Programming

Relevant coursework

Relevant coursework: Web Development, Databases, Software Engineering

Sports University of Physical Education and Tourism in Białystok

09.2015 - 09.2018

Bachelor's degree - Physical Education
