

Patryk Wisniewski

Software Tester | Automation-focused QA

Poland (open to hybrid/remote) | +48 508 604 322 | patryk.wisniewski2319@gmail.com | linkedin.com/in/patrykwisniewski2319 | github.com/PatrykWisniewski

SUMMARY

Software Tester with commercial experience in manual testing of mobile and Smart TV applications, actively developing skills in test automation using Java and Selenium WebDriver. Familiar with automated UI testing concepts, API testing and version control with Git. Strong analytical mindset and focus on building reliable and maintainable test solutions.

SKILLS

TEST AUTOMATION & PROGRAMMING: Java, Selenium WebDriver, TestNG, Maven, Git, GitHub Actions (CI/CD), SQL, XPath, HTML, CSS

API & NETWORK TESTING: Postman, Charles Proxy, REST API, HTTP, JSON

MANUAL TESTING: Test case design and execution, Exploratory testing, Regression and smoke testing, Static testing (test case reviews), Bug reporting and retesting

TOOLS: ADB, Jira, Xray, Confluence, Chrome DevTools, IntelliJ IDEA

PLATFORMS: Android, Android TV, Fire TV, FireOS, iOS, tvOS, Windows, macOS

LANGUAGES: Polish – native, English – B2

WORK EXPERIENCE

QA TECHNICIAN – TESTRONIC

08.2022 - present

Warsaw, Poland (hybrid)

- Manual testing of streaming mobile and Smart TV apps (Android, Android TV, Fire TV, iOS, tvOS)
- Creating, reviewing and updating test cases based on user stories and platform requirements
- API traffic analysis and response modification using Charles Proxy to simulate backend scenarios
- API testing by analyzing and validating JSON responses against expected values, and verifying application behavior based on backend data
- End-to-end and integration testing of subscription purchase flows for streaming apps across platforms
- Using ADB for device connectivity, application installation, proxy configuration and basic debugging on Android and Smart TV platforms
- Bug reporting and retesting fixed issues
- Preparing test environments and configuring mobile and Smart TV devices for testing
- Performing exploratory, regression and smoke testing across multiple platforms
- Supporting onboarding of new team members and reviewing their bug reports

SOFTWARE TESTER - UTEST (FREELANCE)

12.2021 - 05.2022

- Exploratory and test case-based testing on real client projects
- Bug reporting and validation
- Working with test scenarios provided by clients

PROJECTS

UI TEST AUTOMATION – DEMO E-COMMERCE APPLICATION (DEMOBLAZE)

Java, Selenium WebDriver, TestNG

GitHub: [LINK](#)

- Automated UI tests for a demo e-commerce web application using Java and Selenium WebDriver
- Implemented Page Object Model to improve test readability and maintainability
- Created test scenarios validating key user flows and UI elements
- Configured CI/CD pipeline using GitHub Actions to automatically run Selenium tests on pull requests and generate test reports

CERTIFICATES

[ISTQB® Foundation Level](#)

EDUCATION

University of Bialystok

- Master's Degree (Criminology)
- Bachelor's Degree (National Security)
