## SUMMARY

Full-Stack Developer (React, Node.js) with hands-on experience building scalable web applications, including a travel planning platform and AI-powered behavioral analysis system. Focused on delivering real-world solutions with clean architecture, API design, and user-centered interfaces.

## EDUCATION

Lublin University of Technology  
2022-2026

**B.Eng. in Software Engineering**

Lublin University of Technology  
2026-2027(in progress)

**M.Eng. in Software Engineering**

## PROJECTS

### Expedis – Travel Planning App (Engineering Thesis)

React, Node.js, MongoDB, JWT | [GitHub](#)

Built a full-stack travel planning application with booking functionality and user authentication (JWT). Designed RESTful APIs and integrated external services to enhance trip recommendations. Improved user flow and UI responsiveness using a modular React architecture. Implemented secure authentication, reducing unauthorized access risks.

### Scarlet – Behavioral Analysis App

Next.js, Node.js, MongoDB, GenAI | [GitHub](#) | [Demo](#)

Developed AI-powered behavioral analysis app using Google Gemini API. Designed custom “Warning Score” algorithm to detect relationship risk patterns. Implemented real-time suggestions based on chat/image input. Combined psychology and AI to solve real-world interpersonal problems

### UniPlan – iOS Student Planner

SwiftUI | [GitHub](#)

Developed a native iOS planner for student scheduling and task management. Built an ICS parser to convert timetable data into structured views. Implemented persistent storage using JSON and UserDefaults. Added core features: CRUD for tasks/exams, local notifications, onboarding, gesture-based UI

## TECHNICAL SKILLS

### Frontend

React  
JavaScript (ES6+)  
HTML5, CSS3  
Tailwind / Bootstrap

### Backend

Node.js (Express)  
MongoDB  
REST API  
JWT Authentication

### Tools

Git, GitHub  
Postman  
Docker (basic)  
Linux (basic)

## VOLUNTEER EXPERIENCE

Lublin University of Technology  
02/2023 – present

### Career Office Ambassador

Collaborated with companies and students during tech events.

Ukraine | 08/2022

### Charity Concert Organizer

Managed the team, handled event promotion, and successfully achieved fundraising goals.

## LANGUAGES

Ukrainian (Native)  
Polish(Advanced B2)  
English (Advanced B2)

## CERTIFICATES

Cisco (2024) - IoT, Cybersecurity, Networking Basics & Configuration.  
The Complete Full-Stack Web Development Bootcamp – Dr. Angela Yu | Oct 9, 2025
