

Junior QA Automation Engineer

Diana Idiatullina

Warsaw, Poland • id789366@gmail.com • [linkedin.com/in/dianaaid](https://www.linkedin.com/in/dianaaid)

SUMMARY

QA Engineer with hands-on experience in manual and API testing and a strong background in Frontend Development. Skilled in JavaScript and TypeScript, currently building test automation skills with Playwright and Selenium through QA training. Experienced in regression, functional, exploratory, and API testing, as well as bug reporting and test documentation. Strong attention to detail and analytical thinking. Resident in Poland with full right to work.

TECHNICAL SKILLS

Testing: Manual testing, Test case design, Test plans, Regression testing, Smoke testing, Exploratory testing, API testing, Bug reporting, Test documentation, Agile

Automation: Playwright, Selenium, JavaScript, Page Object Model, UI Test Automation Fundamentals, basic CI/CD understanding

Tools: Postman, Swagger, Jira, TestRail, Browser DevTools, Git, Confluence

Technical Background: JavaScript, TypeScript, HTML, CSS, Vue.js, Nuxt, frontend application testing

Languages: English – B2, Polish – B1/B1+, actively improving, Russian – Native

PROFESSIONAL EXPERIENCE

QA Engineer, Twój StartUP, Jan 2025 – Present

Testing web platforms for auto loans, consumer credit, and insurance products

- Designed, created, and maintained test cases, checklists, and test documentation in TestRail for web-based fintech and insurance platforms.
- Executed functional, regression, smoke, exploratory, and integration testing of business-critical user flows before releases.
- Performed full regression testing before production releases and helped reduce post-release defects by around 30%.
- Conducted API testing using Postman and Swagger, validating requests, responses, status codes, and JSON data consistency.
- Identified, documented, and tracked 120+ defects in Jira with clear reproduction steps, screenshots, expected results, and actual results.
- Collaborated with developers and QA team members to verify bug fixes, clarify requirements, and support stable releases.

Frontend Developer | 2019 – 2024

- Developed responsive web applications using Vue.js, Nuxt.js, JavaScript, TypeScript, HTML and CSS.
- Worked with REST APIs, forms, validation and frontend-backend integration.
- Used frontend knowledge to identify UI issues, edge cases and improve usability, which now supports my QA work.

Automation Practice – Playwright, Selenium

- Practiced UI test automation using Playwright and Selenium WebDriver with JavaScript.
- Worked with locators, assertions, browser actions and Page Object Model basics.
- Currently developing automation skills with focus on web applications and API testing.

Education & Training

Udemy – Playwright: Web Automation Testing From Zero to Hero, 2026

Coursera – Introduction to Selenium, 2026

Udemy – Manual QA Engineer (Web & Mobile): Postman, SQL, Git, Bash, Artsiom Rusau, 2025

Kazan State **University** of Culture and Arts – Bachelor of Fine Arts, 2016
