- Served clients across 9 countries; managed full delivery cycle from architecture through post-launch support on multi-country SaaS and e-commerce projects

Projects

SwipeHire (ProposalAI) | React Native (Expo), TypeScript, Expo Router, Claude AI | [Live](#) | [GitHub](#)

- Engineered a cross-platform job app (iOS, Android, Web) with gesture-driven swipe UX via React Native Reanimated; integrated Claude AI to generate personalized cover letters in under 10 seconds, cutting application time by 70%
- Reached 150+ beta users within the first month of soft launch with zero critical crashes reported

Cook-Ai | Next.js 15, TypeScript, AI Vision API, Tailwind CSS | [Live](#) | [GitHub](#)

- Launched AI-powered recipe app enabling 900+ active users to scan ingredients via camera and receive instant AI-generated recipes, logging 6,000+ recipes generated
- Deployed on Vercel with mobile-first UI, achieving a 94/100 Lighthouse performance score

AdStudio | Next.js 15, React, TypeScript, Supabase, Tailwind CSS | [Live](#) | [GitHub](#)

- Built an AI-powered ad creation platform with Supabase SSR authentication and route-level middleware for access control, reducing ad production time from 2+ hours to under 5 minutes
- Implemented multi-format export (social, display, search) with AI-generated copy and visual suggestions
