EDUCATION

Sep 2007 – Sep 2011

Tel-Aviv University, Tel-Aviv ISRAEL

Faculty of Social Sciences

B.A. degree in Mass Communication and Political Science.

Professional Summary:

Experienced Analyst specializing in operational excellence, process improvement, and data analysis with a strong background in Lean methodologies and advanced technical skills in Power BI, VBA, and process mapping. Proven ability to optimize workflows, create actionable insights through data visualization, and standardize business processes in international environments. PRINCE2 Foundation certified, ensuring a structured approach to project management and continuous improvement initiatives.

CORE COMPETENCIES

- **Financial Reporting & Dashboards:** Expertise in developing, automating, and optimizing control tools and dashboards using Power BI and Excel, providing comprehensive insights for management and stakeholders.
- **Operational Excellence:** Expertise in leading continuous improvement initiatives, focusing on efficiency, quality, and cost reduction.
- **Process Mapping & Documentation:** Proficient in mapping and analyzing workflows, creating SOPs, and identifying inefficiencies for process optimization.
- **Advanced MS Excel & Data Analysis:** Proficient in advanced Excel functions (pivot tables, formulas, VBA), facilitating efficient data analysis and accurate reporting.
- **Project Management:** PRINCE2 Foundation certified, ensuring structured project execution and effective stakeholder communication.

WORK EXPERIENCE

October 2022 -	SIX Group Operational Excellence Analyst
	• Led process improvement projects, streamlining workflows and reducing inefficiencies across departments. • Developed Power BI dashboards to visualize KPIs and provide actionable insights to senior management. • Automated data processing tasks using VBA, improving accuracy and reducing manual effort. • Mapped and documented workflows, creating SOPs to standardize processes and ensure compliance with best practices.
May 2020 - September 2022	“Infosys” BPM Senior Business Analyst/Consultant
	• Supported continuous improvement initiatives by analyzing operational data and providing recommendations for optimization. • Created and maintained Excel-based tools and Power BI dashboards for tracking performance metrics. • Collaborated with cross-functional teams to standardize processes and implement best practices in data management. • Participated in Lean-based workshops to identify and address process bottlenecks.
January 2018 - April 2020	“Infosys” BPM Business Analyst
	• Analyzed financial statements and prepared regular and ad hoc financial reports for internal stakeholders, supporting strategic financial planning. • Contributed to risk assessment processes by analyzing financial data and identifying potential areas of concern. • Worked with clients and internal teams to ensure data

	accuracy, consistency, and alignment with project objectives and regulatory standards.
January 2017 - December 2017	“Infosys” BPM RTR (Record to Report) Process Specialist
	• Provided analytical support for financial reporting within Record to Report functions, maintaining data accuracy and consistency. • Automated standard reporting tasks with VBA, increasing efficiency and data accuracy. • Assisted in preparing financial statements, ensuring adherence to reporting standards and enhancing data transparency.
May 2016 – December 2016	“Infosys” BPM Senior Process Executive O2C Philips Royal
	• Allocated incoming payments with invoices and customer accounts daily, reconciled balances, and analyzed customer balance reports for correct credit limits set. • Solved disputes with customers, prepared MEC and daily reports, and conducted ICS/ICA invoicing and reporting.

TECHNICAL SKILLS

Programming: VBA (Excel, Access, Outlook), SQL, DAX (Power BI).

Data & Reporting Tools: Power BI, SAP, HFM, SharePoint, Excel (Advanced).

Languages: Russian (Native), English/Hebrew/Polish (Fluent), German (Intermediate).

ADDITIONAL INFORMATION

Project Experience: PRINCE2 Foundation. Extensive experience in financial data analysis, risk assessment, and preparing documentation for grant and loan applications.

Attention to Detail: Consistently ensures data accuracy and compliance with regulatory standards in financial reporting and application processes.

Collaboration: Effective in working with cross-functional teams to drive continuous improvement initiatives.
