SKILLS

Core: React, Next.js, TypeScript, JavaScript (ES6+), SSR/SSG, Vue

State & Data: Redux Toolkit, Redux Saga, Tanstack Query, Zustand, Zod, Supabase

Styling: Tailwind CSS, SCSS, CSS Modules, MUI, shadcn/ui, Storybook

Accessibility: WCAG 2.1, Core Web Vitals, Lighthouse Optimization

Tools & Testing: Jest, React Testing Library, Playwright, Git, Vite, Postman, Swagger, React Hook Form

Methodologies: SCRUM/Agile, CI/CD, VPS Deployment, REST API Integration

AI-Driven Dev: Claude Code CLI, AI-Assisted Development

SELECTED PROJECTS

DagoExpress — Custom admin panel for international logistics & real-time shipment tracking (Next.js, TypeScript, SSR).

Opiekawterenie (SeniorApp) — Multi-tenant SaaS admin panel for municipal services with RBAC, reporting, data export (Next.js, MUI, shadcn/ui).

OffMarketDeals — Real-time real estate analytics dashboard with advanced filtering and interactive maps (Next.js, TypeScript, Chart.js).

Full portfolio (13+ projects): kbauer.pl

EDUCATION

Bachelor's Degree (Licencjat)
Music Pedagogy · Uniwersytet im. Jana Długosza · 2014–2017

LICENCES & CERTIFICATIONS

Frontend Developer Course
YouCode (youcode.pl) · 2023 · ID: 2.14/00336/2021
HTML, CSS, JavaScript, React, responsive design, web application development.

Zrozumieć React
zrozumiereact.pl · 2026
40+ hours, 150+ exercises — React, Testing, advanced frontend patterns.

LANGUAGES

Polish: Native

English: Professional working proficiency

ABOUT ME

Frontend Developer with **2+ years** of commercial experience delivering **13+ production applications** across logistics, real estate, SaaS, and municipal sectors. Specializes in **React, Next.js, and TypeScript** with a proven track record: **30% reduction in page load times**, **40% fewer re-renders**, Lighthouse scores above **95%**, and pixel-perfect Figma-to-code delivery at 100% design consistency. Builds accessible (**WCAG 2.1**), server-side rendered (**SSR/SSG**) web applications. Additionally develops websites as a **freelancer**, managing full project lifecycle from design to production. Integrates **AI-driven development workflows** (Claude Code) to accelerate delivery cycles. Seeking a long-term role to grow toward Full-Stack and Mobile development.

WORK EXPERIENCE

Frontend Developer — Freelance Self-Employed | 2023 – Present

- Designs and develops websites for clients independently, managing full project lifecycle from requirements gathering and Figma design handoff to production deployment.
- Delivers responsive, performant web solutions applying Lighthouse 95+, WCAG 2.1 standards consistently across all projects.

Frontend Developer Sysmo – IT Solutions | May 2025 – Dec 2025

- Developed modern frontend solutions for large-scale enterprise systems using React, Next.js, and TypeScript, reducing average page load time by ~30% through code splitting and lazy loading.
- Designed and built complex custom admin panels for data-heavy platforms serving over **10,000 active users**.
- Translated Figma designs into pixel-perfect, responsive code with 100% design consistency and WCAG 2.1 accessibility compliance.
- Integrated REST APIs and cut unnecessary re-renders by over **40%** using memoization and Tanstack Query caching.
- Operated in a fully remote B2B model delivering features on schedule within an agile SCRUM team.

Frontend Developer RemoteRebels | April 2024 – May 2025

- Built and maintained responsive SSR/SSG user interfaces, achieving Lighthouse performance scores above **95%** through code optimization and Core Web Vitals monitoring.
- Developed a library of **30+ reusable, accessible** React components, reducing feature development time by approximately **25%**.
- Collaborated with UI/UX designers to transform Figma concepts into interactive applications using React, Next.js, Tailwind CSS, and shadcn/ui.
- Implemented and maintained CI/CD pipelines, reducing manual deployment steps by **50%**.
- Worked in a fully remote B2B model within SCRUM/Agile framework.
