

Marcin Panuś

Frontend Developer

Summary

Frontend Developer with **3+ years of experience** building **scalable web applications** using **React**, **TypeScript** and **modern frontend tooling**. Experienced in developing **reusable UI components**, working in **Nx monorepo** architecture, and collaborating with cross-functional teams in **large-scale product** environments. Skilled in **automated testing**, **frontend maintainability** and **performance-oriented development**.

Experience

June 2024 - present

Samsung Electronics | Warsaw

Junior Frontend Developer

Core Responsibilities:

- Contributed to the development of a key **Samsung Ads platform** using **React**, **TypeScript** and **Astro**
- Worked in **Nx monorepo** architecture, developing **reusable UI components** and shared frontend modules
- Collaborated closely with UX/UI designers, backend engineers and **cross-functional teams** in a **large-scale product environment**
- Implemented and maintained automated **unit tests (Jest)** and **end-to-end tests (Playwright)** to ensure application reliability
- Contributed to frontend maintainability and performance-oriented development

Achievements & Additional Experience:

- Participated in a **3-week business trip to Mountain View, California**, collaborating directly with a US-based Samsung Ads team
- Completed a **6-month mentorship program** focused on frontend and backend engineering best practices
- Participated in technical trainings covering **Go**, **SQL** and **Docker**, and obtained **AWS Certified Cloud Practitioner certification**
- Supported agile team processes by temporarily taking on **Scrum Master responsibilities**

August 2023 - May 2024

Samsung Electronics | Warsaw

Frontend Developer (Internship)

- Contributed to the development of a large-scale **Demand-Side Platform (DSP)** using **React**, **Ruby on Rails** and **GraphQL**
- Implemented frontend features and collaborated on **backend integrations** across different parts of the system
- Worked in a cross-functional team environment, contributing to both **frontend and backend tasks**
- Implemented and maintained automated unit and end-to-end tests to ensure application reliability and **product quality**

July 2022 - October 2022

Silky Coders | Gdańsk

Frontend Developer (Internship)

- Contributed to the development of a **production system for employee management**
- Participated in **scrum ceremonies** and collaborated within a development team
- Performed **code reviews** and worked with stakeholders to gather and translate requirements into tasks
