Professional Summary

Specialist in Key Account Management, Customer Success, and IT/ERP implementation project management, with over 12 years of experience working with B2B clients across the IT, logistics, and manufacturing sectors. I specialize in managing strategic client relationships, leading end-to-end ERP implementation projects (from business analysis to post-go-live support), and analyzing business processes. I combine sales, analytical, and project management competencies to ensure a high level of customer satisfaction.

Key Achievements

- Delivered 5 full ERP implementations (end-to-end delivery) for transport and logistics companies, managing projects from pre-implementation analysis to post-go-live support.
- Maintained and developed relationships with key clients, contributing to stable and predictable revenue and long-term business partnerships.
- Increased customer satisfaction by reducing response times, improving communication, and introducing project service standards.
- Strengthened brand visibility through cross-department collaboration, participation in marketing initiatives, and delivering product presentations.
- Improved implementation effectiveness by optimizing business analysis processes and client requirements documentation, and introducing workflow automation that increased operational efficiency.

Core Competencies

- Key Account Management
- Project Management (ERP / IT)
- Business Process Analysis
- ERP / TMS / WMS / YMS Implementations
- Production & Logistics Processes
- Customer Success / SPOC
- SaaS / IT Solutions
- Stakeholder Management
- Project & Team Coordination
