Top Skills

C#

.NET

Object-Oriented Programming

Git / GitHub

SQL

SQLite

Unit Testing

Entity Framework Core

Languages

English C1 (Full Professional)

Polish (Native)

Certifications

Foundational C# with Microsoft

Experience

Nov 2025 - Present

.NET Developer
(Projects)

Daily Cosmic Observer (REST API)

Developing a backend service with .NET 10 and C# 14 that integrates NASA's APOD API. Architected a relational SQLite database using EF Core.

BankingApp & MSLearnLabs

Based on MS Learn modules, built a comprehensive console-based banking system and standalone practice applications to master C#, advanced OOP, and Git/GitHub.

Algorithms (LeetCode)

Actively (40+ days streak) solving complex algorithmic challenges (60+ solved) to solidify knowledge of data structures, algorithmic efficiency, clean code, and memory management.

Jul 2023 - Sep 2023

GlobalLogic
Software Engineer Intern
(QA Academy)

Completed an intensive 300-hour remote engineering program focused on the Software Development Life Cycle (SDLC) and Agile methodologies

Developed object-oriented applications in Java simulating enterprise scenarios, strictly applying Design Patterns and Clean Code standards.

Developed automated API and UI testing using Postman and Selenium within a distributed team environment.

Education

Mar 2024 - Nov 2025

Koszalin University of Technology
Master of Science in Engineering,
Computer Science

Oct 2020 - Mar 2024

Koszalin University of Technology
Bachelor of Engineering,
Computer Science
