- Polish: native
- English: B2

CAREER SUMMARY

Frontend Developer with 7 years of experience building scalable, user-centric web applications. Strong in React and TypeScript, with hands-on microfrontend architecture, API integrations, automated testing, and performance optimization. Focused on clean, maintainable code and long-term scalability.

PROFESSIONAL EXPERIENCE

Capgemini

10/2025 – 02/2026

Software Engineer

- Built microfrontend applications for one of Europe's largest banks as part of an investigative-portal ecosystem.
- Developed frontend features for an AI-enabled module aimed at accelerating investigators' workflows and supporting their day-to-day case work.
- Collaborated in an international team; focused on React/TypeScript implementation, API integration, and UI consistency.

BlueSoft

08/2024 – 08/2025

Frontend Developer

- Developed the user interface layer of an ERP-class application using React, TypeScript, and a modern frontend stack.
- Integrated microservice-based backend systems via REST APIs, maintaining architectural consistency.
- Implemented end-to-end automated tests using Playwright and actively participated in code reviews.
- Worked on performance optimization and scalable frontend architecture design.

Gravity Global / Nurture Agency Ltd.

12/2018 – 07/2024

Frontend Developer

- Contributed to 5+ successfully delivered projects (web applications and websites).
- Built reusable UI components with React, TypeScript, and modern CSS; ensured responsive, cross-browser layouts.
- Integrated third-party platforms (HubSpot, Auth0), developed unit tests with Jest.
- Participated in building an internal headless CMS product based on React and GraphQL.

Ideo Software

07/2018 – 11/2018

Web Developer

EDUCATION

M.Sc. in Computer Engineering – Information Systems

2013 – 2019

Rzeszów University of Technology, Rzeszów
