About Me

I am currently pursuing a Master's degree in Computer Science and Information Systems (specialization: Artificial Intelligence Methods) at the Faculty of Mathematics and Information Science, Warsaw University of Technology.

I specialize in developing efficient backend solutions in the .NET ecosystem and cloud integrations (Microsoft Azure). I have commercial experience in building REST APIs and architectures based on microservices/cloud functions. I am looking for opportunities to further develop as a Backend Developer.

Experience

Junior .NET Developer, ITBoom Sp. z o.o., Warsaw March 2025 – January 2026

- Designing and implementing integrations between CRM systems and cloud services using Azure Durable Functions. Developing business logic in C# and managing data flow. Working in a distributed environment and a Scrum team.
- Technologies: .NET, C#, T-SQL, Azure Durable Functions, Microsoft Azure, Azure DevOps, Angular, TypeScript, Dynamics 365, Power Platform.

Teaching Assistant / Lab Instructor, Warsaw University of Technology October 2024 – Present

- Conducting regular Code Reviews of student projects in the .NET environment, with an emphasis on Clean Code principles, SOLID rules, design patterns, and solution optimization.
- Technical mentoring in Polish and English. Designing complex programming tasks and developing the educational platform `csharp.mini.pw.edu.pl` supporting the teaching process.
- Technologies and concepts: C#, .NET, WPF (MVVM), Design Patterns, SOLID, Code Review.

Intern .NET Developer, ITBoom Sp. z o.o., Warsaw July 2024 – September 2024

- Creation and development of commercial web applications and designing efficient REST API endpoints.
- Technologies: C#, ASP .NET Core, xUnit, EF Core, T-SQL, Angular, TypeScript, Tailwind CSS.

Education and Academic Achievements

Warsaw University of Technology, Faculty of Mathematics and Information Science, *Computer Science and Information Systems*, specialization: *Artificial Intelligence Methods*, Full-time Master's Degree February 2026 – Present

Warsaw University of Technology, Faculty of Mathematics and Information Science, *Computer Science and Information Systems*, Full-time Bachelor's (Engineer's) Degree October 2022 – February 2026

- **Academic Result:** Graduated with honors (grade: 5.0) with an engineering thesis titled *Implementation of a distributed version control system with CLI and GUI interfaces* in Rust.
- **Achievements:** Warsaw University of Technology Rector's Scholarship for the best students in the academic years 2023-2024, 2024-2025, and 2025-2026.

Skills

Programming Languages: C#, T-SQL, Rust, Python, PowerShell, Bash.

.NET Ecosystem: .NET, EF Core, Blazor, xUnit, Moq.

Architecture & Integration: Microservices, REST API, gRPC, GraphQL, RabbitMQ, CQRS, Dependency Injection, Design Patterns.

Cloud & Infrastructure: Microsoft Azure (including Durable Functions), Linux, NoSQL (MongoDB).

AI & LLM Integration: Agentic Workflows, Multi-Agent Systems, MCP (Model Context Protocol), Semantic Kernel, Claude API, Gemini API.

Developer Tools: Git, GitHub, Azure DevOps, Visual Studio, VS Code, SQL Server Management Studio.

Languages: English (C1).
