Summary

Frontend Developer with 3 years of experience building React applications in commercial environments. Recently focused on refreshing and expanding skills through hands-on projects using TypeScript and modern React patterns. Strong emphasis on clean, maintainable code, performance, and user experience.

Projects

The Wild Oasis (App) — React, TypeScript, Supabase [↗](#)

- Built a full-stack hotel management app with dashboard, bookings, and cabin management features
- Implemented authentication, protected routes and full CRUD functionality
- Managed server state with TanStack Query and handled forms with React Hook Form + Zod
- Live Demo link [↗](#) | GitHub link [↗](#)

The Wild Oasis Website — Next.js, TypeScript, Supabase

- Built a customer-facing hotel website enabling users to browse cabins and manage reservations
- Implemented booking flow with date selection and availability handling
- Implemented server-side rendering and routing using the Next.js App Router
- Live Demo link [↗](#) | GitHub link [↗](#)

Professional Experience

Frontend Developer

10/2025 – Present

Independent Projects & Re-skilling

- Building modern React applications using TypeScript, Hooks, and reusable component patterns
- Implementing API integration and state management (REST, TanStack Query / Context API)
- Focusing on performance, code quality, and scalable architecture

Real Estate Agent

06/2025 – 09/2025 | Łódź, Poland

Grupa Stryjewscy

- Managed client relationships and negotiations
- Worked in a fast-paced, target-driven sales environment

Frontend Developer

01/2023 – 08/2024 | Łódź, Poland (Remote)

Accolade Pro

- Contributed to development of a React-based SaaS application used in production
- Implemented UI components based on design systems ensuring consistency
- Participated in code reviews and improved code quality across the team

Junior Software Engineer

09/2021 – 12/2022 | Wrocław, Poland

Better Software Group

- Developed applications for SmartTV and web platforms
- Collaborated with QA and participated in code reviews
